Water Pipe Replacement Project for Hardison Road, Rock Creek Drive, Gaywind Drive and Gorham Drive

Charlotte Water (CLTWater) is planning to replace existing 2-inch galvanized steel pipe (GSP) water mains with new 2 and 6-inch water mains within the areas listed below:

1. Hardison Road between 5325 Hardison Road to the dead end
2. Gaywind Drive between Sharon View Road to Holyoke Lane
3. Gorham Drive from 5500 to 5516 Craigmere Drive
4. Rock Creek Drive

Construction may start on May 1st and last two to three months. On-street parking will be temporarily unavailable in construction zone. Flaggers will assist drivers around the construction zone.

Property Access

Construction activities will take place within the street right-of-way and easements. Driveway and sidewalk access may be limited at times. Our construction inspector will notify property owners and minimize time if a driveway is inaccessible to a few hours.

Planned Water Outages

Staff will notify affected customers of planned water outages 72-hours in advance. Any unplanned water outages are considered emergencies and will be repaired as soon as possible.

Discolored Water is Possible

Construction may cause temporary cloudy, discolored water or lower than usual pressure. If you experience some discoloration in your water:

1. Run the cold water from your outside spigot or tub for 15 minutes.
2. When the water runs clear, run cold water through any taps where discolored water is present.
3. If not clear, call 311 to report issues.

Project Contacts

Project Inspector - Enzo Martucci, 980-721-0225

Project Coordinator - Olivier A. Veille, 704.336.7461 or Olivier.Veille@charlottenc.gov

Contractor - R.H. Price Inc., Steve Price, 704-771-6050
